Most people don't understand that Hair loss is a medical problem which requires a proper medical assessment, diagnosis and ongoing monitoring, hence the importance of seeing a qualified medical practitioner.

Experience the difference of having your hair back to its natural glory!

THE FACTS ABOUT HAIR LOSS.

It's normally a touchy subject.

Hair loss can be a very challenging issue. Some people will accept baldness, others will be more pre-emptive and want to do something about it. At the MasterDerm clinic we are there to ensure you will receive a personalised medical treatment plan for your particular condition.

Once a person has decided to be pro-active regarding their hair loss, they should come in for a consultation. In your initial medical consultation with Dr Felix you will be examined, blood tests may be required, once your diagnosis and treatment plan is established, the payment plans will be discussed.

When you decide that the MasterHair treatment is your preferred choice, you will be placed into an environment of exceptionally high level of customer service. Dr Felix will be your expert monitoring your results.

TAKE ACTION TODAY!

The role of the MasterHair treatment is to ensure you get the best results possible available to your condition, and more importantly, maintain the results for the rest of your life.

WORRY LESS.

It is designed to take all of the worry out of your condition.

MasterDerm's always deliver A grade medical service which are accompanied with high levels of customer service, professionalism and empathy.

DON'T PROCRASTINATE, EARLIER THE INTERVENTION THE BETTER THE RESULTS!
